

12-Inch Car Audio Subwoofer

This 12-inch subwoofer is designed for car audio systems. It features a reinforced cone and high-excursion capabilities for accurate bass reproduction.

Overview

High-Performance Bass Reproduction

This 12-inch subwoofer is engineered specifically for demanding car audio applications, delivering deep and accurate low-frequency response. Featuring a robust construction with a reinforced cone and durable surround, it is built to handle high-excursion demands with ease. The design includes advanced thermal management, such as a vented pole piece, ensuring reliable performance during extended listening sessions.
