

# 12-inch Folding Bike with Aluminum Frame

This folding bike features a 12-inch ultra-small strengthening tube frame. It is equipped with an aluminum alloy V brake system and KMC chain.

## Overview

### Compact Urban Mobility

This 12-inch folding bike features a lightweight aluminum frame designed for convenience and portability. Its compact, single-speed configuration makes it an ideal solution for urban commuters, women, and older children. With a step-through design and upright riding posture, it ensures a comfortable and accessible riding experience for daily errands.
