

12-Inch Grinding Wheel with 3-Inch Arbor

This grinding wheel is designed with a 12-inch diameter, 1-1/2 inch thickness, and a 3-inch arbor hole. Constructed with 32A46 abrasive grain, it provides aggressive cutting action and is suitable for use on various metals.

Product Overview

High-Performance Grinding Solution

This 12-inch grinding wheel is precision-engineered for demanding material removal applications. Constructed with 32A46 abrasive grain, it delivers aggressive cutting action and consistent, long-lasting performance. It is an ideal choice for professionals working with carbon steel, general steel, malleable cast iron, and hard bronze.

Physical Dimensions

Diameter	12 inch
Thickness	1.5 inch
Arbor Hole Diameter	3 inch

Technical Specifications

Abrasive Material	Aluminum Oxide
Grain Specification	32A46

Application Suitability

Application Type

Rough Grinding • Material Removal

Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
