

12-Inch Pizza Maker with Ceramic Stone

This 12-inch pizza maker features a ceramic stone for even heat distribution. It has a fixed temperature setting and is ETL approved.

Product Overview

Professional 12-Inch Pizza Maker

This high-performance pizza maker features dual top and bottom heating elements to ensure perfectly crispy crusts and evenly melted toppings. Designed for convenience and efficiency, the 12-inch non-stick cooking plates allow for easy food release and quick cleanup. With variable temperature control and a hinged lid, this unit provides the versatility needed for consistent, professional-quality results in any kitchen environment.
