

12-Inch Planer Thicknesser Combination Machine

This combination machine features a 12-inch planer and thicknesser, suitable for woodworking. It can optionally include a morticer device and has a 2000W power rating.

Overview

Versatile Woodworking Solution

This 12-inch planer thicknesser combination machine is designed for professional woodworking, offering high precision and durability. It seamlessly integrates planing and thicknessing functions in a single compact unit, making it an ideal choice for workshops where space is at a premium. With its robust 2000W motor and three-knife cutter block, it delivers consistent results across various wood types.

Performance Metrics

Motor Power

2000 W

Motor Output

Cutter Block Speed

Frequency	Speed
50Hz	4,000 rpm
60Hz	4,800 rpm

Feed Speed

Frequency	Speed
50Hz	8 m/min
60Hz	9.6 m/min

Capacity & Dimensions

Planing Capacity

- Max Planing Width: 310mm
- Max Thicknessing Width: 310mm
- Max Thicknessing Height: 180mm
- Max Cutting Depth: 2.5mm

Table Specifications

- Planing Table: 310 x 1285mm
- Thicknessing Table: 310 x 600mm

Technical Details

Cutter Block Details

- Cutter Block Diameter: 75mm
- Feeding Block Diameter: 40mm
- Number of Knives: 3

Fence Tilt	45 degrees
Dust Chute Diameter	100 mm
