

# 125 HP Farm Tractor

This tractor features a direct injection, water-cooled, 4-stroke engine. Its gearbox uses F16+R8.

## ADDITIONAL IMAGES

## Overview

The 125 HP tractor is built for versatile field performance.

## Robust Agricultural Performance

This 125 HP farm tractor is engineered for high-demand agricultural operations, featuring a reliable 6-cylinder, water-cooled engine. Designed for versatility, it is equipped with a high-capacity F16+R8 shuttle shift transmission and a heavy-duty LUK dual-function clutch. Its robust construction ensures long-lasting performance across diverse field conditions, making it an essential asset for modern farming efficiency.

## Engine & Performance

### Rated Power

**92 kW**

Rated Power

**2300 r/min**

Rated Speed

### Engine Configuration

- 6-cylinder configuration
- Direct injection technology
- 4-stroke cycle
- Vertical water-cooled system

## Transmission & Drivetrain

Gearbox Type	F16+R8 Shuttle Shift
Clutch System	LUK 12-inch, dual-function, independent, dry clutch

## Technical Specifications

Dimensions (LxWxH)	5060 x 2345 x 2995 mm
Dry Mass (with cab)	5350 kg
Fuel Tank Volume	150 L
Rear Linkage	II Rear Mount 3-point Linkage
PTO Speed	760 rpm, 1000 rpm
Braking System	Static hydraulic pressure, double disc
