

125cc Air-Cooled Four-Stroke Motorcycle

This motorcycle features a 125cc, air-cooled, four-stroke engine. It is designed for commuting and light transport, with a sturdy frame and comfortable seat.

Overview

High-Performance 125cc Commuter

This 125cc air-cooled four-stroke motorcycle is engineered for reliability, fuel efficiency, and urban utility. Featuring advanced engine technology, it offers superior climbing ability and carrying capacity compared to standard models. Designed with ergonomic seating and durable components, it is an ideal solution for daily commuting and light cargo transport.

Engine & Performance

Maximum Power

7.2 kW

Max Power

Maximum Torque

8.6 N.m

Max Torque

Engine Type	Four-stroke, air-cooled single cylinder
Displacement	125 cc
Top Speed	90 km/h

Technical Specifications

Dimensions (L x W x H)	2010 x 740 x 1050 mm
Wheelbase	1290 mm
Minimum Ground Clearance	160 mm
Vehicle Weight	106 kg

Fuel & Efficiency

Fuel Tank Capacity	11 L
Economic Fuel Consumption	> 1.9 L / 100 KM

Features

Key Features

- Electric and kick start system
- Wet multi-plate clutch
- Drum brakes (front and rear)
- Ergonomic, deformation-resistant seat cushion
- High-brightness S2 HS1 headlamp with PC material shell
