

125cc Commuter Motorcycle

This motorcycle is a standard commuter bike equipped with a 125cc engine. Designed for urban environments, it features a step-through frame and standard motorcycle features.

Overview

Urban Commuter Solution

The 125cc commuter motorcycle is engineered specifically for efficiency and maneuverability in busy urban environments. Featuring a practical step-through frame design and a reliable 125cc engine, it provides a balanced riding experience for daily transportation. This model combines essential safety components like front disc brakes and dual rear shock absorbers to ensure consistent performance on city streets.
