

125cc Off-Road Dirt Bike

This dirt bike is equipped with a single-cylinder engine producing 5.5kW at 8000rpm. It features a front disc brake and a rear drum brake for reliable stopping power.

Overview

Performance and Design

This 125cc off-road dirt bike is engineered for recreational riding, combining a reliable single-cylinder engine with a robust frame. Featuring a top speed of 85 km/h and a max load capacity of 150kg, it offers a balance of power and agility for varied terrains. Its compact dimensions and 750mm seat height make it an accessible choice for riders seeking a dedicated off-road experience.
