

# 125cc Sport Motorcycle with Front Disc Brake

This motorcycle falls into the 150cc-200cc class and features a sporty design. It is equipped with a front disc brake, telescopic front suspension, and a rear mono-shock suspension.

## Product Overview

### High-Performance Sport Motorcycle

This 125cc sport motorcycle is designed for efficiency and agility, featuring a streamlined body and a robust braking system. With a fuel consumption of just 2.5L/100km and a generous 14L fuel tank, it offers an excellent balance of range and economy for urban and suburban commuting. The combination of a front disc brake and rear drum brake ensures reliable stopping power for a safe and controlled riding experience.

## Performance Metrics

### Performance Highlights

**90 km/h**  
Max Speed

**9.5 kw**  
Max Power

**10 N.m**  
Max Torque

## Engine & Transmission

Displacement	180 ml
Max Power RPM	8000 rpm
Max Torque RPM	6000 rpm
Engine Features	Single-cylinder, Electric Starter

## Dimensions & Weight

Physical Dimensions	2065 x 735 x 1120 mm
Wheelbase	1320 mm
Net Weight	130 kg

## Fuel & Efficiency

Fuel Consumption	2.5L/100km
Fuel Tank Capacity	14 L

## Chassis & Safety
