

125cc Standard Motorcycle

The SK125-2 is a standard motorcycle equipped with a 125cc engine. It features a classic design, comfortable seat, and standard headlights and taillights.

Overview

A Versatile Urban Commuter

The 125cc standard motorcycle is designed for both efficient urban commuting and enjoyable recreational riding. Its classic design architecture ensures rider comfort, while the robust 125cc engine provides reliable performance for daily transit. With its aesthetic appeal featuring a chrome exhaust and classic spoked wheels, it balances functional durability with traditional style.
