

125cc Underbone Motorcycle

This 125cc underbone motorcycle is designed with a step-through frame for easy mounting and dismounting. It is equipped with a single-cylinder engine, front and rear suspension, and safety features suitable for urban commuting.

Overview

Designed for Urban Mobility

This 125cc underbone motorcycle combines artistic design with practical engineering for daily commuting. Featuring a robust 125cc engine with a dual-clutch system, it offers smooth shifting and reliable power delivery. The motorcycle is built with high-quality materials, including a durable 5.0L ABS tank and an adjustable rear shock system to handle various road conditions comfortably.

Technical Specifications

Engine Displacement	125 cc
Fuel Tank Capacity	5 L
Transmission	Dual clutch system

Design & Build

Material Finish

Grade 8 Electroplated Standards • High Quality ABS

Construction Quality

Automobile-Level Panel Process, 3mm Component Clearance, Corrosion-resistant Electroplating

Comfort & Utility
