

12.5L Industrial Air Compressor

This air compressor is designed for industrial and professional applications. It features a durable tank and a high-efficiency pump system.

Overview

Industrial Air Compression Solution

This 12.5L industrial air compressor is engineered for high performance and energy efficiency in demanding professional environments. Featuring a compact and robust design, the unit offers versatile power options, allowing users to select between electric motor, gasoline, or diesel engines based on operational needs. It is built for longevity, smooth operation, and low maintenance, making it an ideal choice for various pneumatic tools and maintenance applications.

Performance Metrics

Rated Displacement

3 m3/min

Max Displacement

0.3 m3/min

Min Displacement

Exhaust Pressure

0.8 MPa

Technical Specifications

Safety Features

- Pressure relief valve
- Overload protector

Tank Capacity

12.5 L

Power Source Options

Electric Motor, Gasoline Engine, Diesel Engine

Design & Utility

Portability

Wheel-mounted • Portable • Compact
