

125mm Cordless Angle Grinder

This 125mm cordless angle grinder is designed for grinding, cutting, and polishing. It features a brushless motor that delivers extended runtime and increased power.

Overview

High-Performance Cordless Grinding

This 125mm cordless angle grinder is engineered for professional cutting, grinding, and polishing tasks. Featuring a high-efficiency brushless motor, it offers extended runtime and superior durability compared to traditional brushed motors. Designed with user safety and convenience in mind, the tool includes soft-start technology, a quick-release mechanism, and a compact, ergonomic body for maneuverability in confined spaces.
