Product Overview

Professional Metal Grinding Performance

This 125mm Type 27 depressed center grinding wheel is engineered for demanding metal surface preparation and stock removal tasks. Featuring three full-diameter high-tensile fiberglass reinforcements, it offers maximum safety during operation. Designed for efficiency, the wheel delivers consistent performance in weld grinding, beveling, and snagging applications while maintaining a balance between durability and material removal speed.

Technical Specifications

Diameter	125 mm
Maximum RPM	12250 RPM
Max Operating Speed	80 m/s
Reinforcement	3 Full diameter fiberglass nets
Available Grit Sizes	24#, 30#, 46#, 60#
Hardness Grade	R

Compliance and Safety

Certifications

MPA EN12413 • ISO 9001 • ISO 14001 • OHSAS 18001

Safety Standards

- Iron content < 0.1%
- Sulphur content < 0.1%
- Chlorine content < 0.1%
