

# 12mm SMT Component Feeder for Yamaha Machines

This 12mm feeder is designed for use in Yamaha SMT pick-and-place machines. It accurately and reliably delivers 12mm components during the automated assembly process.

## Product Overview

### Precision 12mm SMT Feeder

This high-precision component feeder is specifically engineered for use in automated Surface Mount Technology assembly machines. Designed for 12mm tape width, it ensures consistent and reliable component delivery during high-speed production cycles. Its robust construction minimizes mechanical downtime and integrates seamlessly into professional SMT placement equipment.

## Technical Specifications

Compatible Machine Series	Yamaha
Tape Width	12 mm

## Available Models

### Model Reference Table

Series	Part Number
CL8 * 2mm	KW1-M1300-020
CL8 * 4mm	KW1-M1100-030
CL12mm	KW1-M2200-301
CL16mm	KW1-M3200-100
CL24mm	KW1-M4500-015
CL32mm	KW1-M5500-015
CL44mm	KW1-M6500-015
CL56mm	KW1-M7500-015
