Product Overview

Precision 12mm SMT Tape Feeder

This 12mm tape feeder is designed for high-performance pick-and-place automation, ensuring reliable and accurate component delivery for electronic manufacturing. The unit is engineered for durability, supporting consistent high-speed assembly processes while minimizing operational downtime. It is fully compatible with a wide range of standard pick-and-place machine platforms, making it an essential component for optimizing your production line efficiency.

Compatibility

Compatible Series

CL Series, FS Series, FT Series, FV Series, SS Series
