

12T Germanic Type Spoke Axle

This heavy-duty spoke axle is designed for 12-ton applications. It features robust construction suitable for demanding automotive and industrial environments.

Product Overview

12T Germanic Type Spoke Axle

This heavy-duty Germanic type axle is engineered specifically for 12-ton applications, providing robust performance in demanding automotive and industrial environments. Featuring a durable black finish on the central housing and shaft, it is designed for reliability and longevity. The assembly includes specialized red spoke-like components at each end, suitable for integration into braking or power transmission systems in heavy vehicles.
