

12V 135Ah Lead-Acid Battery

This 12V 135Ah lead-acid battery is designed for automotive and industrial applications. The battery provides reliable starting power and deep cycling capabilities.

Overview

Reliable Power Solution

The 12V 135Ah lead-acid battery is engineered for demanding automotive and industrial applications. Designed to provide both reliable starting power and consistent deep cycling capabilities, this unit is built with high-quality materials to ensure durability. It serves as an ideal power source for vehicles, backup energy systems, and other professional equipment requiring stable performance.

Technical Specifications

Rated Voltage	12 V
Rated Capacity	135 Ah
Model Number	6-QA-135

Application & Usage

Primary Applications	Automotive, Industrial, Backup Power Systems, Deep Cycling
