

12V 20Ah Electric Bicycle Battery

This 12V 20Ah battery is designed for electric bicycles. It features Nano-Gel technology for high capacity and excellent charge acceptance.

Overview

High-Performance E-Bike Power

The 6-DZM-20 is a high-performance 12V 20Ah battery specifically engineered for electric bicycle applications. Utilizing advanced Nano-Gel technology and a robust Pb-Ca high tin alloy grid, it offers exceptional charge acceptance and low self-discharge rates. Its durable, leak-proof construction and deep-thread copper core terminals ensure reliable, long-lasting power delivery for professional and recreational use.

Key Metrics

Voltage

12 V

Voltage

Capacity

20 Ah

Technical Details

Model Number	6-DZM-20
Terminal Construction	Deepen-thread copper core

Performance Features

Key Technology Features

- Nano-Gel technology
- High anti-vibration ability
- Low self-discharge rate
- Excellent charge acceptance
- Leak-proof design

Grid Material	100% Recyclable, Pb-Ca High Tin Alloy, Cadmium-Free
