

12V 2A Automatic Battery Charger

This automatic battery charger provides a 2 Ampere charging current for DC 12V batteries. It is equipped with power and charge indicators to visually monitor the charging status.

Overview

Reliable 12V Battery Charging

This automatic battery charger is engineered to provide efficient and reliable charging for 12V DC battery systems. With a 2 Ampere output, it is designed to maintain battery health through an automated process. The unit includes clear visual indicators to monitor power status, charging activity, and full charge completion, making it a dependable solution for various 12V power applications.

Technical Specifications

Rated Voltage	DC 12V
Rated Current	2 A
Charging Mode	Automatic

Features

Status Indicators

- Power Indicator
- Charge Indicator
- Full Charge Indicator
