Overview

Versatile 3-in-1 Power Solution

This integrated 12V-24V socket panel is a comprehensive power hub designed for automotive and marine environments. It combines a high-speed dual USB charger, a heavy-duty cigarette lighter socket, and a real-time digital voltmeter into a single, compact flame-retardant housing. Ideal for professional installations in boats, trucks, and RVs, it provides reliable charging and system monitoring in a durable, easy-to-mount format.

Performance Metrics

Power Specifications

63 W

Maximum Power

4.2 A

Total Output Current

5 V

USB Output Voltage

Technical Specifications

Input Voltage Range	DC 12V - 24V
Material	ABS High Temperature Resistant Nylon Flame Retardant
USB Configuration	Dual Ports (2.1A + 1A)
No Load Power Consumption	0.18 W

Design & Dimensions

Product Dimensions	15cm x 7.6cm x 5cm (5.9in x 2.99in x 1.97in)
Unit Weight	150 g
Color	Black

Application & Compatibility

Integrated Components

- Dual USB Car Charger
- Cigarette Lighter Socket
- Digital Voltmeter Display
- Three-hole Mount Panel
- Protective Dust Caps

Suitable Applications

Car, Boat, Bus, Truck, Motorcycle, RV, Yacht

Installation & Package

What's in the Box

- 1 x Triple Port Power Outlet Panel
- 6 x Blue Connector Caps
- 2 x Installation Screws
