

# 12V 30Ah Powersports Battery

This high-performance, non-spillable lead-acid battery is designed for powersports and motorcycle applications. The 12V, 30Ah battery provides reliable starting power and long-lasting performance.

## Product Overview

### High-Performance Powersports Battery

This 12V 30Ah battery utilizes advanced VRLA (Valve Regulated Lead Acid) technology to deliver dependable starting power for a variety of powersports and motorcycle applications. Designed as an activated, non-spillable unit, it offers a maintenance-free experience with enhanced resistance to vibration. It serves as a versatile replacement for multiple standard industry models, ensuring broad compatibility and long-lasting performance.

## Technical Specifications

Voltage	12 V
Capacity	30 Ah
Battery Technology	VRLA (Valve Regulated Lead Acid)
Maintenance	Maintenance-free
Spill Resistance	Yes

## Compatibility

### Replaces Models

- YIX30L-PW
- CTX30CL-BS
- YB30CL-B
- CB30CL-B

## Compliance & Standards

Certifications	ISO TS16949
