

12V 32Ah Lead-Acid Battery

This 12V 32Ah lead-acid battery is designed for automotive and industrial use. It provides power to start vehicles and run electrical components.

Overview

Reliable Power Solution

This 12V 32Ah lead-acid battery is designed for consistent performance in demanding industrial and automotive applications. Engineered for durability, it features a robust casing and clearly marked terminals for safe and efficient installation. This unit is an ideal choice for backup power systems, mobility devices, and other applications requiring stable voltage output.

Technical Specifications

Battery Chemistry

Lead-Acid • Rechargeable

Voltage

12 V

Capacity

32 Ah

Model Identifier

6-QA-32

Design Features

Terminal Configuration

- Red (Positive)
- Blue (Negative)

Construction

Durable Casing, Cell Access Caps, Industrial Grade
