

# 12V 54Ah 525A Automotive Battery

This automotive battery is a 12V battery with a 54Ah capacity. It features a cold cranking amps (CCA) rating of 525A (SAE).

## Overview

### Reliable Automotive Power

This 12V automotive battery is engineered to deliver consistent and dependable starting power for a wide range of vehicles. With a capacity of 54Ah and a robust cold cranking amps (CCA) rating of 525A, it is designed to perform reliably in demanding conditions. This unit is built to meet essential automotive standards, ensuring compatibility and performance for professional maintenance and replacement needs.

## Technical Specifications

### Cold Cranking Amps

**525 A**  
CCA (SAE)

Voltage	12 V
Capacity	54 Ah
Model Number	55415
