

12V 5Ah Motorcycle Battery

This 12V 5Ah motorcycle battery provides reliable starting power. It features upper and lower level indicators for electrolyte maintenance and is suitable for a variety of motorcycle applications.

Product Overview

Reliable Starting Power

This 12V 5Ah motorcycle battery is engineered to deliver consistent and reliable starting power for various motorcycle applications. Designed with a focus on high-rate discharge performance, it ensures dependable operation even in demanding conditions. The unit includes clear electrolyte level indicators to facilitate straightforward maintenance and longevity.

Technical Specifications

Rated Voltage	12 V
Rated Capacity	5 Ah
Performance Features	High Rate Discharge, Reliable Starting

Maintenance & Design

Level Indicators

- Upper Level Indicator
- Lower Level Indicator

Maintenance Indicators	Yes
