

12V 7Ah Motorcycle Battery

This is a 12V 7Ah motorcycle battery with standard terminals for easy connection. It features robust construction for reliable power delivery in motorcycle applications.

Product Overview

Reliable Motorcycle Power

This 12V 7Ah lead-acid battery is engineered for consistent performance in motorcycle applications. Featuring a robust construction, it ensures reliable power delivery for starting and operation. The unit is designed with standard terminals to facilitate straightforward installation and maintenance.

Technical Specifications

Voltage	12 V
Capacity	7 Ah
Battery Chemistry	Lead-acid
Model Designation	12N7-3B

Maintenance & Safety

Maintenance

- Requires proper handling
- Regular maintenance checks advised
- Monitor electrolyte levels (Upper/Lower)
