

12V Automotive Battery

This 12V automotive battery is designed to provide reliable starting power for vehicles. It features a robust construction with multiple cells, each capped with a blue vent plug, and clearly marked upper and lower level indicators.

Overview

Reliable Starting Power

This 12V automotive battery is engineered to provide consistent and reliable starting power for a wide range of vehicles. Built with robust construction, it features clear level indicators to ensure easy maintenance and long-lasting durability. Designed for performance in various operating conditions, this battery is a dependable solution for automotive electrical systems.

Technical Specifications

Rated Voltage	12 V
Rated Capacity	80 Ah
Model Code	6-QA-80

Design Features

Maintenance Indicators

- Upper level indicator
- Lower level indicator

Construction	Multi-cell design, Vent plugs, Durable casing
