

# 12V Automotive Lead-Acid Battery

This 12V lead-acid car battery is designed for automotive applications, providing reliable starting power and auxiliary electrical support. It features robust construction, a maintenance-free design, and integrated safety features.

## Product Overview

### Reliable Starting Power

This 12V lead-acid battery is engineered for automotive applications, providing dependable starting power and auxiliary electrical support. Designed with a focus on durability, it features robust construction and a maintenance-free system for long-term reliability. Integrated safety mechanisms are included to protect against overcharge and short circuits, making it a dependable choice for various vehicle models requiring a B24R size.

## Technical Specifications

Voltage	12 V
Battery Size Code	B24R

## Features

Maintenance Type	Maintenance-free
Safety Features	Overcharge Protection, Short Circuit Protection

## Application

Primary Application	Automotive Starting and Auxiliary Power
