

# 12V Battery and Alternator Tester with LED Indicators

This 12V battery and alternator tester is a diagnostic tool for assessing battery and alternator performance. It uses 6 LED power indicators and includes alligator clips for secure connection to battery terminals.

## Product Overview

### Professional Diagnostic Tool

This 12V Battery and Alternator Tester is an essential diagnostic tool for ensuring the health of your vehicle's charging system. Designed for quick and reliable assessments, it utilizes 6 LED indicators to provide immediate feedback on both battery voltage levels and alternator output. The device includes secure alligator clips for easy connection, making it suitable for professional maintenance or routine vehicle checks.

## Technical Specifications

Compatible System Voltage	12V
Display Type	6 LED Power Indicators
Certifications	CE, RoHS Compliant

## Operational Details

### Voltage Thresholds

Function	Voltage Level
Alternator Check	13.2V - 15.5V
Battery Check	11.5V - 12.6V

### Connection Type

- Alligator clips for battery terminals
- Red clamp for positive terminal
- Black clamp for negative terminal
