Overview

Professional Cordless Performance

This 12V cordless drill screwdriver is engineered for versatility and reliability in various drilling and screwdriving applications. Featuring a 1.5Ah lithium-ion battery, it offers extended runtime and efficient power delivery for professional and DIY tasks. The tool includes a two-speed powder metallurgy gearbox and adjustable torque settings, ensuring precise control and durability on the job site.

Technical Specifications

Voltage	12 V
Battery Capacity	1.5 Ah
Battery Chemistry	Lithium-ion
Gearbox Construction	Two-speed powder metallurgy

Features

Key Features

- Built-in LED work light
- 1-hour quick charge time
- Variable speed trigger
- Adjustable torque settings
- Full function safety protection for battery
