Overview

High-Efficiency Automotive Cleaning

This portable 12V car vacuum cleaner is engineered for effective interior maintenance, featuring a HEPA filtration system to capture fine dust, allergens, and microscopic particles. Designed for convenience, it connects directly to your vehicle's 12V DC power source, making it an ideal tool for cars, trucks, and RVs. With a 5-meter cable and included attachments, it provides the reach and versatility needed to clean carpets, upholstery, and hard-to-reach crevices thoroughly.
