

12V Low Voltage Halogen Capsule Lamp

This low voltage 12V halogen capsule lamp is designed for compact and efficient lighting. It provides a bright, white light output with excellent color rendering, commonly used in display, task, and accent lighting.

Product Overview

Compact Illumination Solution

This 12V low voltage halogen capsule lamp is engineered for applications requiring a compact, efficient, and reliable light source. Featuring a clear glass envelope and a standard bi-pin base, it ensures easy installation and consistent performance. The lamp delivers a bright, white light output with excellent color rendering, making it an ideal choice for professional display, task, and accent lighting environments.

Technical Specifications

Voltage	12 V
Lamp Type	Halogen Capsule
Base Type	Bi-pin
Product Reference	42425

Applications

Common Applications	Display Lighting, Task Lighting, Accent Lighting
