Product Overview

Compact & Reliable Liquid Transfer

This 12V micro DC brushless water pump is designed for efficient and reliable liquid transfer in compact spaces. Featuring a durable construction and a convenient DC plug, it is suitable for both indoor and outdoor applications. It is an ideal solution for hydroponics, aquariums, small fountains, and various agricultural or drainage systems.

Electrical Specifications

Rated Voltage	12 V
Operating Voltage Range	5-14 V
Max Load Current	1.3 A
Power Consumption	15.6 W

Performance Metrics

Key Performance Metrics

800 L/H
Max Flow Rate

3 m
Max Static Lift

Application & Usage

Recommended Applications	Hydroponics, Aquariums, Small Fountains, Agriculture Machinery, Drainage Systems, Irrigation
--------------------------	--

Product Details

Model Number	WIN-140803
Connection Type	DC Plug
