Product Overview

Smart Lighting Solution

This 12W round LED ceiling light is designed for efficient, automated illumination in high-traffic areas such as hallways, corridors, and stairwells. Featuring an integrated microwave motion sensor, the unit provides hands-free operation and significant energy savings by automatically activating only when movement is detected. Its sleek surface-mount design and day white color temperature ensure a clean, professional aesthetic that integrates seamlessly into any commercial or residential interior.

Technical Specifications

Power Consumption	12 W
Light Color	Day White
