

13-Piece Non-Sparking Socket Set with Ratchet and Extension

This 1/2" drive socket set includes 13 pieces and is die forged. It is constructed from either Beryllium Copper (Be-Cu) or Aluminum Copper (Al-Cu) and includes a variety of sockets, a ratchet handle, and an extension bar, all housed in a durable carrying case.

Product Overview

Professional Non-Sparking Socket Solution

This 13-piece socket set is engineered for safety in hazardous environments where non-sparking tools are required. Featuring a 1/2-inch drive, the kit includes a versatile range of sockets, a robust ratchet handle, and an extension bar for hard-to-reach fasteners. It is available in two specialized material compositions to suit varying operational requirements.
