Overview

High-Performance Agricultural Tractor

This 130 HP 4WD tractor is engineered for dry fields and versatile agricultural operations. Featuring European-inspired design technology, it offers a high torque reserve and robust traction force for demanding tasks like plowing and hauling. With a focus on operator comfort and reliability, the machine integrates premium components and an ergonomic cabin for long working hours.

Performance

Key Performance Metrics

130 HP

Horsepower

29.5 KN

Traction Force

30 %

Torque Reserve

Transmission

Synchronizer 16F+8R

Hydraulics & PTO

PTO Rotation Speeds

- 540
- 720
- 850
- 1000

Maximum Lifting Force

23 KN

Hydraulic System

Three-way hydraulic output with double cylinder high-pressure lifter

Technical Specifications

Optional Equipment

Internal Air Filter • External Air Filter • Single Pipeline Air Brake • Double Pipeline Air Brake • Upper Exhaust

Fuel Tank Capacity	255 L
Three-Point Hitch Category	Category II
Certifications	OECD, EAC, E-mark
