

1300W Tile and Masonry Saw

This 1300W tile and masonry saw is designed for cutting marble and masonry. The power tool is engineered for precision and durability, ensuring clean and accurate cuts in various materials.

Overview

Professional Tile and Masonry Cutting

This 1300W tile and masonry saw is engineered for high-efficiency performance during light-load operations. Designed with durability in mind, it features a protected motor envelope to extend service life and a specialized labyrinth dustproof bearing system. The tool offers adjustable cutting angles, making it a versatile choice for precision cutting in tile, marble, and masonry applications.

Technical Specifications

Power Rating	1300 W
Blade Diameter	125 mm
Bore Diameter	22.23 mm
Blade Thickness	2 mm

Key Features

Suitable Materials

Tile • Marble • Masonry

Durability & Design

Labyrinth Dustproof Bearings, Motor Envelope Protection, Adjustable Cutting Angle
