

1300W Tile Saw Marble Masonry Cutter

This tile saw features a 1300W motor for efficiently cutting tile, marble, and masonry. It is designed for precise cuts in both professional and DIY applications.

Product Overview

Professional Tile and Masonry Cutting

This 1300W tile saw is engineered for high-efficiency cutting of marble, tile, and masonry materials. It features a robust motor envelope for extended service life and advanced labyrinth-design dustproof bearings to withstand harsh cutting environments. Designed for both precision and durability, this tool is an essential asset for professional masonry and construction tasks.

Rated Power

1300 W

Power Output

Blade Dimensions

Parameter	Value
Blade Diameter	110 mm
Bore Diameter	20 mm
Blade Thickness	2 mm

Key Features

Key Features

- High efficiency for light load work
- Motor envelope protection for prolonged service life
- Labyrinth dustproof bearing design
- Adjustable cutting angle (optional configuration)

Suitable Materials

Tile, Marble, Masonry
