

135-Degree Precision Square with Base

This precision square is engineered with a 135-degree angle and a stable base for accurate measurements. It adheres to DIN875/2 standards, ensuring reliability for engineering, metalworking, and quality control applications.

Product Overview

Precision 135-Degree Square

This precision-engineered 135-degree square with a stable base is designed for accurate angle measurement and marking tasks. Built to meet DIN875/2 standards, it offers high reliability for demanding environments. It is an essential tool for professionals in engineering, metalworking, and quality control.

Technical Specifications

Standards Compliance

DIN875/2

Angle	135 °
Dimensions	75x75 mm

Applications

Suitable Industries	Engineering, Metalworking, Quality Control
