

# 14 Gauge Pneumatic Concrete Nailer

This pneumatic nailer is designed for driving nails into concrete and other hard materials. It features durable construction and a pneumatic operating system for consistent performance.

## ADDITIONAL IMAGES

## Product Overview

### Professional Concrete Nailer

This 14-gauge pneumatic concrete nailer is engineered for high-performance fastening into concrete and hard wood surfaces. Featuring a durable gravity-cast aluminum alloy body, it offers both reliability and longevity for demanding construction environments. The tool incorporates essential safety mechanisms, including contact and partial sequential firing modes, to ensure secure operation on the job site.

## Technical Specifications

Operating Pressure	92.5 Psi
Load Capacity	50 Nails
Nail Length	18-32mm (23/32-1-1/2")
Nail Diameter	2.2 mm

## Physical Attributes

Dimensions	302 x 84 x 246 mm
Net Weight	1.9 kg

## Performance Features

### Key Advantages

- 300,000 working cycles
- Imported high-wear parts
- Powerful performance for hardwood
- 100% spare parts availability

Safety Systems	Contact mode, Partial Sequential mode
----------------	---------------------------------------

## Certifications & Services

### Certifications

CE • ISO 9001:2008

### Service Availability

OEM Available, Sample Available, Lifelong After-Sale Service
