

14-Inch Electric Chain Saw

This electric chain saw has a 14-inch blade with low vibration technology, ensuring smooth and precise cuts. Its compact size and lightweight construction make it easy to maneuver in tight spaces.

Product Overview

Professional Cutting Performance

This 14-inch electric chain saw is engineered for efficiency and precision in various cutting applications. Featuring a powerful motor and low-vibration technology, it ensures smooth operation while minimizing user fatigue during extended use. Its compact, lightweight design allows for excellent maneuverability, making it an ideal choice for both professional and home maintenance tasks.

Technical Specifications

Input Power	1000 W
Bar Length	355 mm
Chain Speed	6000 min

Electrical

Voltage/Frequency Options

- 230V~50Hz
- 120V~60Hz

Safety & Features

Performance Highlights

14 inch Blade Size	1000 W Power Output
------------------------------	-------------------------------

Key Features

Low Vibration, Ergonomic Design, Chain Brake, Hand Guard
