Product Overview

High-Performance 1400W Circular Saw

This 1400W circular saw is engineered for demanding woodworking tasks, offering a robust motor with copper wiring for reliable, long-term performance. It features a versatile design with adjustable cutting depth and bevel capabilities, making it suitable for both professional construction and precise DIY projects. With a 5000rpm no-load speed and durable aluminum blade protection, this tool ensures efficient, smooth, and accurate cutting across various wood applications.

Technical Specifications

Input Power

1400 W
Input Power

Electrical Requirements

Parameter	Value
Voltage	230V
Frequency	50Hz

Performance

- No load speed: 5000rpm
- Blade diameter: 185mm

Cutting Capabilities

Max Cutting Depth

Angle	Depth
90°	63mm
45°	42mm

Design & Build

Construction Features

Copper wiring, Soft grip handle, Iron plate, Aluminum blade protection
