Product Overview

Professional Battery Housing Solution

This durable 14.4V battery housing is engineered for NI-CD/MH battery packs, providing a secure and robust enclosure for your energy storage needs. Designed with a red and black aesthetic, it features a reliable locking mechanism and a sturdy handle for easy installation and transport. This housing is an essential component for custom battery pack assembly, ensuring protection and longevity for internal cells.

Technical Specifications

Key Features

Robust Handle • Secure Locking Mechanism • Terminal Connectors Included • Durable Plastic Construction

Voltage Rating	14.4 V
Compatible Battery Chemistry	NI-CD, NI-MH
Model Identifier	BAT038

Logistics & Warranty

Package Contents

- 1 x Battery Housing Unit
- 1 x User Manual
- Bubble bag protection
- Small carton box

Lead Times

Order Type	Estimated Time
Samples	3-5 days
Bulk Order	15 days

Warranty

1 Year

Usage Guidelines

Safety & Handling

- Fully charge before first use
- Store in a cool and dry place
- Do not separate, extrude, or impact
- Keep away from water, fire, and children
