Overview

Professional Cordless Performance

This 14.4V cordless drill and screwdriver kit is engineered for versatility and efficiency in diverse drilling and fastening applications. Featuring a high-performance lithium-ion battery system with a 1-hour quick charge, it ensures minimal downtime on the job site. The tool includes practical enhancements like a built-in LED work light, a battery capacity indicator, and a convenient belt clip for high-altitude or mobile operations.

Technical Specifications

Battery Capacity

1.5 Ah
Capacity

Voltage

14.4 V

Gearbox

Two-speed powder metallurgy gearbox

Features & Benefits

Key Features

- Built-in LED work light for dark areas
- 1-hour quick charge capability
- Short circuit protection
- Battery capacity indicator
- Automatic battery ejection system
- Belt clip for convenient carrying

Safety & Compliance

Short Circuit Protection, Lithium-ion Technology

Packaging & Logistics

Storage

Blow Molded Case (BMC)
