Product Overview

High-Capacity Oil-Free Air Fryer

This advanced 14.5L air fryer is designed for efficient, healthy cooking in modern kitchens. Featuring a dual-element heating system and 360° convection, it cooks 20% faster than traditional methods while maintaining a large capacity with a convenient 3-layer rack design. The unit is built with durable stainless steel and a double-tempered glass viewing window, allowing for safe and easy monitoring of the cooking process.
