

15" 1000W Active 2-Way PA Loudspeaker

This active 2-way PA loudspeaker provides professional-quality sound. The birch cabinet houses a 15" woofer and 1.75" tweeter, delivering crisp audio with a wide frequency response.

Product Overview

Professional 2-Way PA Solution

This high-output 15-inch active loudspeaker is engineered for demanding professional sound reinforcement environments. Featuring a powerful 1000-watt Class D amplifier and onboard digital signal processing, it delivers superior clarity and consistent performance for live events, mobile DJ setups, and permanent installations. Its rugged construction ensures long-term reliability for professionals who require high sound pressure levels and precise audio control.
