Overview

High-Efficiency 15 CBM Waste Collection Solution

This 15 cubic meter garbage truck is engineered for heavy-duty municipal and commercial waste management. Featuring a robust chassis and advanced hydraulic systems, it ensures reliable loading, compaction, and unloading performance in demanding urban environments. The vehicle's design prioritizes durability and maneuverability, making it an ideal choice for efficient waste collection services.

Performance Highlights

Performance Metrics

15 CBM

Capacity

90 KM/H

Max Speed

32 °

Max Gradability

Vehicle Dimensions & Weight

Physical Specifications

Parameter	Value	Unit
Overall Dimension	9280 x 2500 x 3380	mm
Curb Weight	11870	kg
Front Hanging	1500	mm
Rear Hanging	2850	mm

Operational Features

System Capabilities

- Advanced hydraulic loading and unloading system
- High-capacity waste compaction mechanism
- Rear-loading configuration for urban efficiency
- Side-mounted fuel tanks for extended operation
- Integrated ladder for container top access

Applications

Recommended Applications

Municipal Waste Management, Commercial Waste Disposal, Urban Sanitation, Industrial Waste Transport
