

15-Liter Thermoelectric Mini Cooler and Warmer

This thermoelectric minicooler has a 15-liter capacity and can accommodate 2-liter bottles. It cools to 20-25°C below ambient temperature and heats to 60±5°C, with LED indicators for cooling or warming.

Product Overview

Versatile Thermoelectric Cooling and Warming

The TK-15L is a high-performance, egg-shaped thermoelectric cooler designed for maximum versatility in office, home, and vehicle settings. With a spacious 15-liter capacity, it easily accommodates 2-liter bottles in an upright position. The unit features dual-mode functionality, providing effective cooling up to 25°C below ambient temperature and reliable warming up to 60°C.
