Overview

Heavy-Duty Material Handling Solution

This 15-ton heavy-duty forklift is engineered for robust performance in demanding industrial, construction, and logistics environments. It features a high-strength mast design and a powerful hydraulic system to ensure efficient lifting and transport of heavy loads. With a focus on operator safety and comfort, the unit includes an enclosed cabin, ergonomic controls, and advanced suspension systems to maximize productivity.

Performance

Lifting Capacity

15 Ton
Capacity

Max Lifting Height	3.5 m
Fork Length	1800 mm

Technical Specifications

Engine Options

- Standard Engine
- Optional Cummins Engine

Hydraulic System	Parker hydraulic valve, Parker hydraulic pump
Transmission	HangChi ZF technique transmission

Operator Environment

Cabin & Comfort

- FOPS/ROPS enclosed cab
- Air-conditioner
- OPS/ORS adjustable suspension seat
- Fork positioner

Lighting

Full LED lighting system suitable for night operations

Compliance & Warranty

Certifications

CE • ISO9001:2008 • EPA Compliant

Warranty Coverage

1 year or 2000 working hours (whichever occurs first)
